

THE FIRST TWINGE

Of Rheumatism Calls for Dr. Williams' Pink Pills if You Would Be Easily Cured.

Mr. Frank Little, a well known citizen of Portland, Ionia Co., Mich., was cured of a severe case of rheumatism by Dr. Williams' Pink Pills. In speaking about it recently, he said: "My body was run down and in no condition to withstand disease and about five years ago I began to feel rheumatic pains in my arms and across my back. My arms and legs grew numb and the rheumatism seemed to settle in every joint so that I could hardly move, while my arms were useless at times. I was unable to sleep or rest well and my heart pained me so terribly I could hardly stand it. My stomach became sour and bloated after eating and this grew so bad that I had inflammation of the stomach. I was extremely nervous and could not bear the least noise or excitement. One whole side of my body became paralyzed."

"As I said before, I had been suffering about five years and seemed to be able to get no relief from my doctors, when a friend here in Portland told me how Dr. Williams' Pink Pills had cured him of neuralgia in the face, even after the pain had drawn it to one side. I decided to try the pills and began to see some improvement soon after using them. This encouraged me to keep on until I was entirely cured. I have never had a return of the rheumatism or of the paralysis."

The pills are for sale by all druggists or sent, postpaid, on receipt of price, 50 cents per box, six boxes \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

American Idealism.

Since my first arrival in America I have held that the real spirit is idealistic and that the average individual American is controlled by idealistic impulses. Those who may contradict me can not have sounded the depths of the philosophy of Ralph Waldo Emerson, or studied the life and read the speeches of Abraham Lincoln, and considered their far-reaching effect on the American people. In Lincoln's great character nothing can be more striking than the way in which he combined reality and the loftiest ideal, with a thoroughly practical capacity to achieve that ideal by practical methods. This faculty seemed to give him a far-sighted, almost superhuman vision, which enabled him to pierce the clouds obscuring the sight of the keenest statesmen and thinkers of his age—Baron Speck von Sternburg, in Forum.

Always to Be Depended Upon.

When a person gets up in the morning with a dull headache and a tired, stretchy feeling, it's an almost certain indication that the liver, or bowels, or both, are decidedly out of order.

At such times Nature, the wisest and best of doctors, takes this means to give warning that she needs the help and gentle assistance which can best be obtained from that old family remedy, Brandreth's Pills, which has been in use for over a century.

They are the same fine laxative tonic pill your grandparents used when doctors were few and far between, and when people had to have a remedy that could absolutely be depended upon.

Brandreth's Pills can be depended upon, and are sold in every drug and medicine store, plain or sugar-coated.

French President's "Double."

M. Fallieres was, until recently, believed to be the only president of the French republic who had no double, but his counterpart has been found. The man who most resembles him physically is a respectable merchant of the Rue Saint Honore, who plays his part with decorum and dignity. He wears exactly the same kind of blue butterfly necktie with white dots as the president, the same kind of hat and exactly so oddly cut a beard. And on his promenades he is always accompanied by a friend who could easily be taken for the president's private secretary. Dignified and with measured steps, the enviable double walks through the Faubourg Saint Honore and feels overjoyed at being saluted on all sides.

THE GRAND TRUNK PACIFIC RAILROAD AND WESTERN CANADA.

Will Open Up Immense Area of Free Homestead Lands.

The railway facilities of Western Canada have been taxed to the uttermost in recent years to transfer the surplus grain crop to the eastern markets and the seaboard. The large influx of settlers and the additional area put under crop have added largely to the grain product, and notwithstanding the increased railway facilities that have been placed at the disposal of the public, the question of transportation has proved to be a serious one.

It will, therefore, be good news to everyone interested in Western Canada to know that an authoritative statement has been given out by C. M. Hays, president of the Grand Trunk Pacific Railway, that that railway will do its share towards moving the crop of 1907 from Alberta, Saskatchewan and Manitoba to tide water, and thus assist in removing a serious obstacle which has faced the settlers during recent years. Mr. Hays, who has just completed a trip from Portage la Prairie to Edmonton in a prairie schooner, a distance of 735 miles, which was covered in eighteen days, is enthusiastic about the country.

This will be gratifying to settlers in the Canadian West, even if Mr. Hays declines to be bound to a time limit with the exactitude of a stop-watch. The Grand Trunk Pacific road will be in a position to take part in the transportation of the crop of 1907, and that will be satisfactory to the settlers in that country when the harvest is garnered.

The wheat crop of 1906 in Western Canada was about 90,000,000 bushels, and, with the increased acreage which is confidently expected to be put under crop next year, it is safely calculated that fully 125,000,000 bushels will be harvested in 1907. The necessity for increased transportation facilities are, therefore, apparent, and the statement made by Mr. Hays will bring encouragement to the farmers of the Canadian West, new and old. The opening up of additional thousands of free homesteads is thus assured by the agent of the Canadian Government, whose address appears elsewhere.

Invention Long Looked for.

A Paris paper devoted to scientific subjects announces the discovery of a practical method of shielding watches and clocks from all magnetic influences. It is said to be the work of a watchmaker named Leroy.

Kept a Diary Seven Years.

Henry Arthur Jones, the noted English playwright, was giving the students of Yale an address on the drama.

"Your American vernacular is picturesque," he said, "and it should help your playwrights to build strong, racy plays. But neither vernacular nor anything else is of moment if perseverance is lacking."

"No playwright can succeed who is like a man I know."

"I said to this man, one New Year's day:

"Do you keep a diary, Philip?"

"Yes," he answered, "I've kept one for the first two weeks in January for the last seven years."
